

TECHNICAL DATA SHEET

Product Name: Epoxy Resin

Product Grade: CYD-127

Product Description:

It is a type of colorless liquid epoxy resin. Due to its special properties, it is mainly used in coating, adhesive, anticorrosion, electric insulation, laminated plates and potting fields. It is also used as the raw material for the production of high-end epoxy resin.

Typical Properties:

Properties	Unit	Specification	Test Method
Appearance		Transparent liquid	Q/SH 1085 007-2023 7.2
Epoxy equivalent	g/mol	180~190	Q/SH 1085 007-2023C
Hydrolysable chlorine	wt, %	≤0.1000	Q/SH 1085 007-2023D
Viscosity	(mPa·s 25°C)	8000~11000	Q/SH 1085 007-2023G
Volatile	wt, %	≤0.200	Q/SH 1085 007-2023J
Color	Platinum-cobalt	≤60	Q/SH 1085 007-2023K

Main Application:

Electric insulation, laminated plates

Packing:

240KG PER BARREL or 1150KGS IBC DRUM
