

TECHNICAL DATA SHEET

Product Name: Epoxy Resin

Product Grade: E-44

Product Description:

It is a type of colorless or yellowish liquid epoxy resin. Due to its special properties, it is mainly used in coating, adhesive, anticorrosion, electric insulation, laminated plates and potting fields. It is also used as the raw material for the production of high-end epoxy resin.

Technical Data Sheet:

Properties	Unit	Specification	Test Method
Appearance		Transparent liquid	Q/SH 1085 007-2020 6.2
Epoxy equivalent	g/mol	210~240	Q/SH 1085 007-2020B
Hydrolysable chlorine	wt, %	≤ 0.3000	Q/SH 1085 007-2020C
Inorganic chlorine	wt, %	≤ 0.0180	Q/SH 1085 007-2020D
Softening point	°C	14~22	Q/SH 1085 007-2020E
Volatile	wt, %	≤ 0.600	Q/SH 1085 007-2020I
Color	Gardner	≤ 1	Q/SH 1085 007-2020J

Main Application:

Anticorrosion.

Packing:

240KG PER BARREL or 1150KGS IBC DRUM
